POUR LES PROFESSEURS D'ANGLAIS

THE STORY

Seventeen-year-old Christy is at a crossroads. He's just been thrown out of his pleasant suburban foster home and moved in with his estranged older brother Shane. As far as Shane is concerned this is a temporary arrangement, but Christy begins to feel at home on Cork's working-class north side. As he makes friends and begins to let the community in, he also reconnects with his past through his seemingly more corrupting extended family, despite Shane's efforts to steer him away from this crowd. Shane wants something better for Christy at any cost – even if it means he has to push him away. After so many years apart, the brothers need to now reconcile their turbulent past whilst deciding what the future looks like.

5 QUESTIONS TO BRENDAN CANTY

Why do you think teenage audiences should see your movie?

A lot of teenagers don't feel confident enough to reach their potential, especially those who've been in care, gone through tough experiences or grown up in places where there aren't as many opportunities. *Christy* is about reaching your potential in life – It shows that with the right people and the right community you can get self-confidence – small things can change your life.

Although *Christy's* story is deeply rooted in Cork, how do you think it can resonate with French teenagers?

The film can relate to everyone in the world. For sure, there are specific accents and dialogues but the story is universal. Personally, I like seeing movies showing parts of the world that are alien to me in the first place.

How would you describe the distinctive features of the Cork accent and dialect compared with the more standard British English usually heard in films?

In some Ken Loach movies set in the UK, I find the dialogue is even harder to understand than the Cork accent. We have some sort of anti-colonial thing to our accent, as if we had invented our own ways to put things. However, there is nothing to stop you from understanding the story. It's more that the lyrical, playful, funny aspects of our accent, its up-and-down melody, makes you feel what is said when you don't fully understand it. But after all, when I watch American tv shows like *THE WIRE*, I may not understand what these young American teenage boys

are saying in the first place, but I can feel what they're saying.

Most of the slang you hear in the movie comes from old traveler language: for instance, "gammy" means lame, not working properly. There are also mild insults, like "langer ball", which means penis and is often used in Ireland.

You've said that *Christy* isn't an "issues movie," yet it touches on topics such as parental absence, family tights, the power of friendship and community-building, social class constraints, personal transformation... A number of issues to be discussed in class

When writing *Christy*, we never meant to make a comment on the state of the system, but we intended to shed light on the reality of the system and let the audience make their own decisions. For instance, social workers do care about their job but are overloaded with work. *Christy* is not a political movie. The idea was to observe everything attentively. But it does bring very authentic conversation about masculinity for example, how men can struggle to communicate. What we did is send both these brothers on a journey that makes them learn about their past, from each other and how talking can help them to heal.

In your view, how does *Christy* fit within the coming-of-age cinema genre? Did you have any reference in mind when filming?

It is a coming-of-age movie definitely. British filmmakers Ken Loach and Andrea Arnold are inspirations for sure but we feel that British cinema can sometimes take a serious, sort of humourless approach to such topics which we don't find fully authentic - there's often lots of light in these situations even amongst the darkness. I'm also into American cinema, with films *Honey Boy* or *Moonlight*, which can be more vibrant and playful. I wanted *Christy* to be colourful and uplifting without being inauthentic. Music also helped us a lot with that.

BRENDAN CANTY

A **committed filmmaker**, offering a window into the reality of contemporary Ireland — especially Cork and its community, of which Brendan Canty is still very much a part. He is particularly interested in youth, music, and Irish culture. He collaborates with young people from the Kabin Studio, an artistic hub in Cork where teenagers create hip-hop, music, and take part in creative workshops.

He **began his career as a music video director**, notably with Hozier's "*Take Me to Church*", which went viral and reached over one billion views on YouTube (earning two MTV VMA nominations). The video depicts homophobia: [Hozier - Take Me To Church](#). He also directs **commercials for major brands** such as Adidas, Sky Sports, Budweiser, and others.

In **2017**, he directed a short film titled *For You*, starring Barry Keoghan. It is freely available on YouTube: <https://www.youtube.com/watch?v=uGAKa1PMe1w&t=1s>. It can be used as an introduction to *Christy and his brother*: A young girl struggles with an alcoholic mother, her environment and entering adulthood, until an act of devotion from her boyfriend offers relief and the strength to love.

In **2019**, he made *Christy*, the short film that later served as the basis for the feature-length version.

A COMING OF AGE MOVIE:

EXPLORE A CINEMATOGRAPHIC GENRE WITH BRENDAN CANTY

A coming-of-age movie is a film that focuses on a young protagonist's transition from childhood or adolescence into adulthood. These stories explore the emotional, psychological, and social growth that occurs during this period of life.

PERSONAL GROWTH

The main character undergoes meaningful internal change or self-discovery.

MILESTONES & CHALLENGES

The story often includes pivotal experiences—friendships, first love, identity struggles, loss, rebellion, or moral dilemmas.

TRANSITION THEME

The narrative centers on leaving behind childhood beliefs or limitations and stepping into a more mature understanding of oneself and the world.

CHARACTER-DRIVEN

Plot tends to focus more on emotional development than external events.

You can then use both ***For You*** and ***Christy and his Brother*** to explore a cinematographic genre that is dear to your students.

CULTURAL FACTS: THE TRADITION OF BONFIRES IN IRELAND

Christy and his Brother shows several bonfire scenes. A good opportunity to explore their meaning in Irish culture....

ANCIENT FESTIVALS: Bonfires in Ireland have origins in pre-Christian Celtic festivals, particularly Lughnasadh (celebrating the harvest in August) and Samhain (marking the end of the harvest and the beginning of winter, around October 31st – now linked to Halloween).

SYMBOLISM OF FIRE: Fire was considered sacred and purifying, believed to protect communities, livestock, and crops from evil spirits or disease. Lighting a bonfire marked the transition from one season to another.

COMMUNITY GATHERING: Bonfires were often communal, serving as a place for storytelling, feasting, and reinforcing social bonds.

PROTESTANT/LOYALIST BONFIRES: In Northern Ireland, particularly in Ulster, large bonfires are lit on July 11th, the eve of The Twelfth, commemorating the Battle of the Boyne (1690).

- o These bonfires are associated with the Orange Order, a Protestant fraternal organization.
- o Historically, they have been a symbol of Protestant identity and, at times, political defiance.

MODERN PRACTICES IN COMMUNITY FESTIVALS:

In many parts of Ireland, bonfires are still part of festive celebrations, including Halloween and local fairs, but now often in a more recreational and symbolic manner. Modern events often incorporate fireworks, music, and storytelling.

BEST REVIEWS TO BE DISCUSSED IN CLASS

The film “revels in the texture of life around the Knocknaheeny area of the city.”

THE IRISH TIMES

“We never wanted it to be an issues film ... we just wanted it to feel authentic, to show the good and the bad, and to let people decide for themselves.”

BRENDAN CANTY

“The film boasts a strong sense of place ... and gains added authenticity from its casting of local teenagers in supporting roles.”

ROTTEN TOMATOES

“Christy refuses to Hollywoodise or sentimentalise working-class life ... its dry Irish cynicism... captures both the resilience and the struggles of communities growing up in economically deprived areas of Ireland.”

VIEWDIGITAL.ORG

“Here is a terrifically warm and involving Irish movie about two brothers from Cork’s northside... moving and funny, with plenty of affectionate shots of the iconic Knocknaheeny water tower looming futuristically over the skyline...”

THE GUARDIAN

“It’s tough, but capable of delicacy and succeeds in conveying something very difficult to achieve without sentimentality: love of your hometown.”

THE GUARDIAN

“Power plays Christy beautifully and believably ... It’s a joy to watch them slip away, revealing the person underneath.”

THESKINNY.CO.UK

“La joie est probablement la plus grande force du film. Elle le distingue de la pléthore d’histoires bien intentionnées, mais sordides, sur la classe ouvrière et les enfants qui grandissent livrés à eux-mêmes.”

CINEUROPA

“C’est beau, lumineux, puissant, sans misérabilisme et sans pathos.”
